

THE POTTERS WHEEL WORLD SCHOOL

Summative Assessment - I

Subject: GK

Duration 1.5 hours

Class 8

Total : 50

Section A

1X10 = 10

Solve these artily cryptic clues

1. Artist whose painting Impression, soleil Levant (Impression, Sunrise) gave birth to the name 'Impressionism' for the style of the time
2. Mercurial, immortal genius who painted nature in South France, and himself with a bandaged ear
3. Founder of Fauvism, the 'wild beast' style that used strong colours and bold forms to convey inner thoughts
4. Probably the most famous painting of the 20th century, Pablo Picasso's Cubist opinion of the horrors of war
5. This Mexican artist was one of the few women who achieved global fame, blending religious themes with a Modernist style in her work
6. Dutch artist who moved to France, and from Impressionism to Neoplastic works, creating his own style with brightly coloured geometric forms on a white background, bound by grids
7. The most important sculptor of the 20th century, son of a coal miner who brought abstraction to the art form, with his larger than life work
8. Distortion of forms, an other-worldly expression, marked this style of Salvador Dali, who also designed the dream sequence in Alfred Hitchcock's classic film Spellbound
9. American artist who specialised in dripping paint on to the canvas to make abstracts, rather than brush them on in the conventional way
10. Iconic pop artist who created a series of colourful images of filmstar Marilyn Monroe and influenced an entire generation of designers

Section B

1X10 = 10

Here are some words that you come across when reading menus or cookbooks and watching food shows like Masterchef. Let's whet that appetite for food terms... (and find out what POACH means too!) Match the words given in column A to their descriptions in column B.

COOKING TERM		WHAT IT MEANS	
1.	whisk	a.	cook food on a rack under or over direct heat
2.	marinate	b.	heat sugar till it liquefies and becomes a golden or dark brown syrup; also, to cook food alongside sugar like this
3.	puree	c.	cook food (usually meat) on a rack or spit over burning coal
4.	deep-fry	d.	to mash or grind food until completely smooth, usually in a processor, blender or sieve
5.	bake	e.	cook a large piece of meat uncovered with dry heat in an oven
6.	roast	f.	beat ingredients (like cream, eggs, butter) with a fork or a special gadget to blend them or add air to make them fluffier
7.	caramelise	g.	soak raw food (meat, vegetables) in a liquid mix (oil, spice, juice) so that the flavours seep right in and it gets tastier!
8.	grill	h.	quickly cook small pieces of food over high heat, stirring constantly
9.	barbecue	i.	cook food (usually a batter or semi-solid, cheesy base) in an oven, surrounded with dry heat
10.	stir-fry	j.	cook food by completely immersing in hot oil

Section C

2X10 = 20

Huge moving rivers of ice and rock, glaciers store immense fresh water. They melt to create rivers, create life. However, now threatened by global warming, they are a dipstick for environmental degradation.

1. Karakoram range's longest glacier, whose name means 'field of roses' in the local language
2. The process by which glaciers 'collect' rocks from the surfaces they move over
3. The famed mountain where some of Africa's remaining glaciers are found
4. Location of Lambert-Fisher, the world's largest glacier (400 km long, 100 km wide)
5. The Lower glacier, found in the Bernese Alps in Switzerland, which shares its name with a famous wizard from the Harry Potter world
6. Glaciers that terminate in the sea are called this
7. The end of the Gangotri glacier from where the Ganga emerges as the Bhagirathi

8. Low, egg-shaped hillocks left behind by glacial activity; their shape reveals the direction of glacial flow
9. The Ladakhi man who has 'grown' a dozen small glaciers to provide freshwater for villages!
10. This large glacier in Argentina is named for a famous Swedish university
.....

Section D

2X5 = 10

Some of the deadliest diseases of the world are caused by the tiniest of organisms. Can you unscramble the answers with the help of the clues?

1. The 2015 outbreak of Zika virus in Brazil caused worldwide panic, as there was no vaccine to counter it. Which vector carries this deadly virus? (EASE) (QUITSOMESO)
.....
2. Human African trypanosomiasis is a parasitic disease transmitted to humans via tsetse fly bites. What is it commonly called? (PINGELSE) (SISNE CKS)
3. The 14th century outbreak of bubonic plague, also known as, wiped out one-third of the European population. It is transmitted by fleas from rats to humans. (KLABC) (HATED)
4. Medicine used to counter malaria, caused by plasmodium parasites transmitted to humans by the bite of female Anopheles mosquitoes (NINEUIQ)
5. Onchocerciasis or is an eye and skin disease transmitted by repeated bites of blackflies that live near fast-flowing rivers in agricultural areas. (VERIR) (BINDSLENS)
