Page 40: Analysis & Problem Solving

C. Identify the following icons in Krita and write their names

1. Square Box Icon: **Rectangle Tool**

2. Diagonal Line Icon: **Line Tool**

3. Connected Line Pen Icon: **Polyline Tool**

4. 'T' Letter Icon: **Text Tool**

5. Brush Icon: **Freehand Brush Tool**

6. Tilted Bucket Icon:
Fill Tool / Paint Bucket

D. Answer the following questions

1. What is Krita?

Answer: Krita is a free, open-source digital painting and raster graphics editor designed primarily for digital artists, concept art, illustrations, and animation.

2. Name five components of Krita interface.

Answer: The five key components are:

- Title Bar
- Menu Bar
- Toolbar / Toolbox
- Canvas (Workspace)
- Status Bar

3. What is the use of the Fill tool in Krita?

Answer: The Fill tool is used to quickly fill an enclosed shape, area, or an entire layer with a chosen foreground color or texture pattern.

4. How can you draw a circle in Krita?

Answer: Select the **Ellipse Tool** from the toolbox. Click and drag across the canvas while holding down the **Shift key** to constrain the proportions, forming a perfect circle.

5. Write the steps to draw lines in Krita.

Answer:

- **Step 1:** Click and select the **Line Tool** from the toolbar.
- **Step 2:** Click and hold the mouse button at your starting point on the canvas.
- **Step 3:** Drag the mouse cursor to your chosen end point and release the button to complete the line.

6. How can you save a document in Krita?

Answer: Click on the **File menu** located in the Menu Bar, select the **Save** option (or press **Ctrl + S**), select the target folder, name your document, and hit save.

7. Write the steps to add text in Krita.

Answer:

- **Step 1:** Select the **Text Tool** (the 'T' icon) from the toolbar.
- **Step 2:** Click and drag on the canvas to set up a bounding box area for the text.
- **Step 3:** In the text editor window that automatically opens up, type your text, select your formatting parameters, click **Save**, and press **Close**.

Critical Thinking & Labeling

E. Competency-Based Question

Scenario: Pawan is a talented artist who creates beautiful paper artworks. You introduced him to Krita and he has shown great results. However, he's currently struggling with creating beautiful and decorative writing. Tell him the name of the tool used to achieve the same in Krita?

Answer: Pawan should use the **Text Tool** to generate structured and styled typography. For more fluid, artistic decorative brush writing, he can also use the **Freehand Brush Tool** along with calligraphic brush presets.

F. Label the components of Krita's interface

Based on the screenshot, here are the corresponding values for the empty label boxes:

- **Topmost Left Box:** Title Bar
- **Top Middle Box:** Menu Bar
- **Top Right Box:** Toolbar / Customization Bar
- **Left Vertical Column Box:** Toolbox (Contains editing tools)
- **Center Box pointing to drawing area:** Canvas (Workspace)
- **Right Side Top Box:** Layers Docker
- **Right Side Bottom Box:** Brush Presets Docker
- **Bottom Horizontal Box:** Status Bar
